

Editing Content

Editing content from the GenIE 2 Room Controller

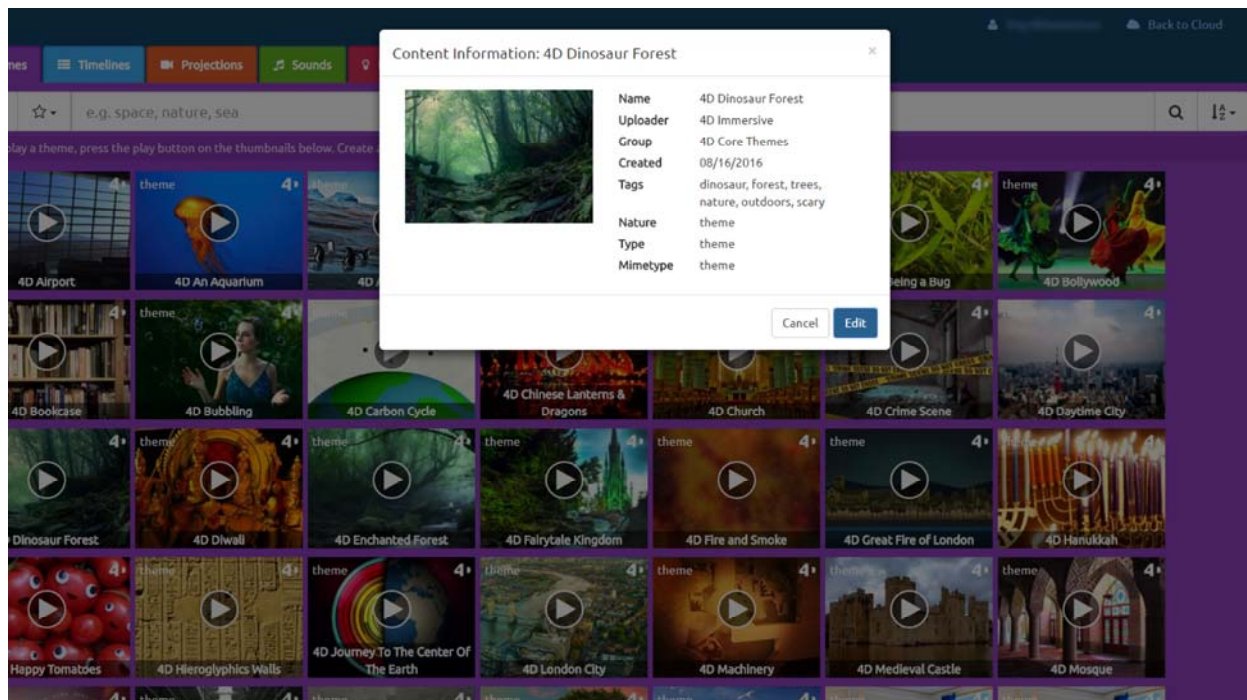

Step 1: Click on the bottom strip of a content thumbnail

To edit a piece of content (i.e. a theme, timeline, projection, or sound), click on the bottom strip of the content thumbnail (normally where the content title is shown). This will bring up an information dialog for that piece of content.

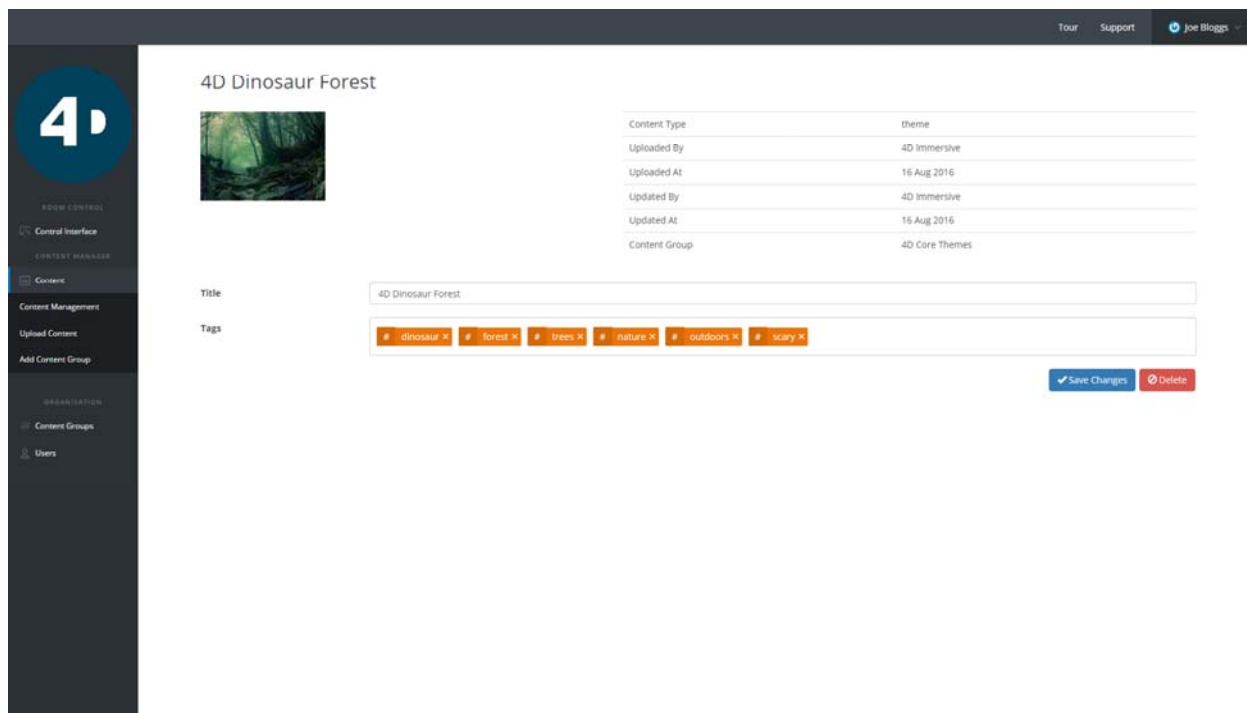

Step 2: Click on the Edit button

You will now see a dialog with details about that piece of content (e.g. name, uploader, tags, etc.). Click the **Edit** button to go to the edit page.

Step 3: Edit content details

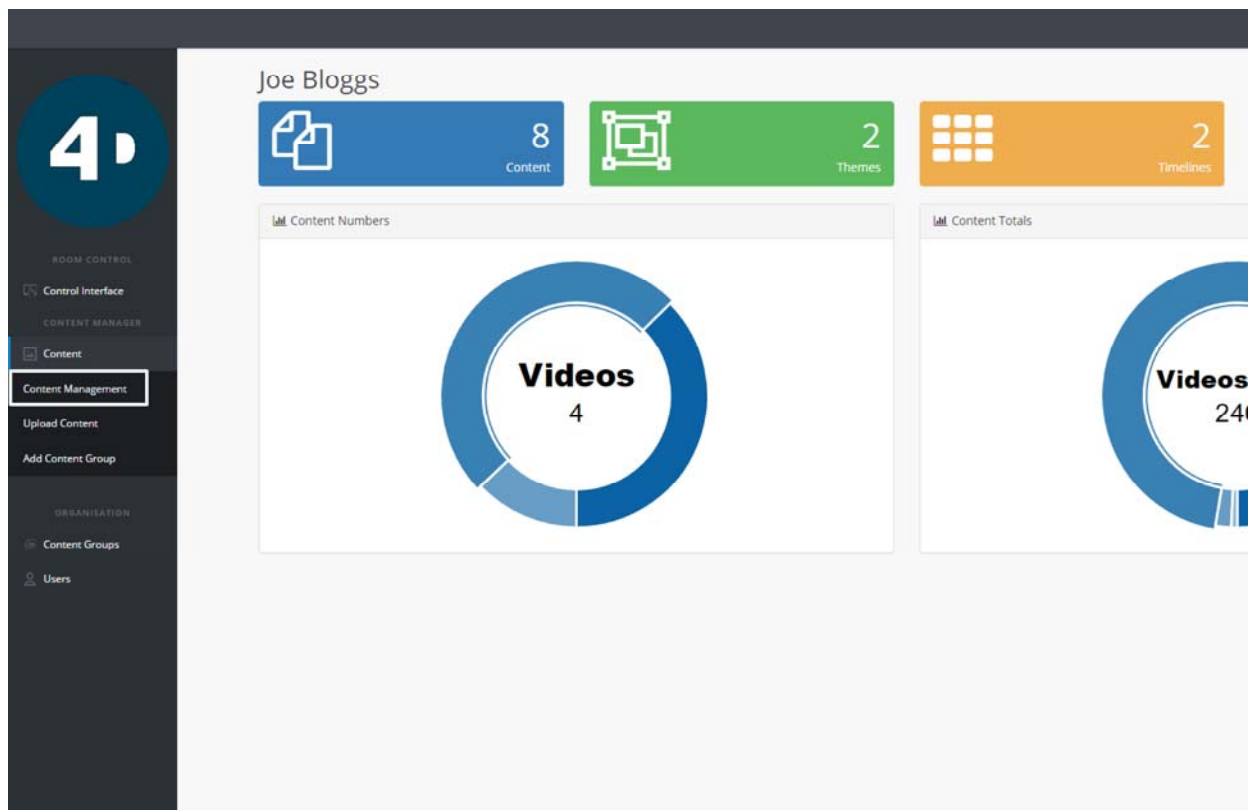

Once you click **Edit** you will be directed to the edit page (see image below). Here you can modify the title of the content and its tags. When you have finished making your modification, click **Save Changes** and you will automatically be re-directed to your GenIE 2 room controller.

Editing content from the GenIE 2 cloud

Step 1: Go to content management

Firstly, make sure that you are logged into your GenIE 2 cloud. Then, on the navigation menu to the left, click on **Content Management**.

Repeat steps 1 to 3 from above (Editing content from the GenIE 2 room controller)
